UbiQsome®

Enhance longevity and promote healthy ageing

How does it work

UbiQsome® is an innovative formulation of coenzyme Q10 with Phytosome® technology, which optimises pharmacokinetics parameters represented by increased absorption and bioavailability, essential for its effectiveness.

Contributing to aging and many of our modern-day chronic illnesses and neurodegenerative diseases are tiny unstable, damaging particles in our body known as free radicals that come about as a by product of our daily bodily processes. Free radicals can be neutralized by antioxidants, which indirectly prevent cancers, chronic diseases, and premature aging. Co-Enzyme Q10, a powerful antioxidant, is produced by our bodies and is necessary for all basic processes in our bodies.

Levels of co-enzyme Q10 decrease naturally as we age, which predisposes us for the negative effects free radicals have such as aging and disease, and other medications such as cholesterol treatments can also reduce Q10 levels.

UbiQsome® is a capsule containing co-enzyme Q10, delivered with phytosomal technology meaning that this Q10 is more bioavailable and absorbed better than any other product before, as it not only reaches the blood stream but reaches the right biological targets, and is even taken up by the muscles in our body, entering the cells where it is exactly needed.

UbiQsome® delivers the Q10 we need for longevity, healthy bodily processes, healthy organs, and reduced diseases. We can target our body's needs right at their core, with the **UbiQsome®** working within each cell, to prevent damage and disease.

UbiQsome® Benefits

- Aids in ATP synthesis
- Antioxidant activity
- Protects against Cardiovascular and Neurodegenerative conditions
- Enhances longevity
- Approximately 14 times more soluble in the intestine than conventional CoQ10
- Approximately 3 times more bioavailable than conventional CoQ10.

Dosage/Directions	Take one (1) UbiQsome® Vegicapsule (100mg) daily
Ingredients	Coenzyme Q10, sunflower lecithin and excipients
Type	30 Vegicaps
Indications	100% Natural
